

**RAMCO INSTITUTE OF TECHNOLOGY**  
**Department of Computer Science and Engineering**  
**Academic Year: 2024 - 2025 (Odd Semester)**

**Student Feedback about Internship / In-Plant Training**

**Name of the Student:** Rhema Shinny K

**Register Number:** 953624104124

**Degree, Semester & Branch:** I YEAR CSE-B

**Nature of Visit:** Internship

**Name of the Industry:** Elite Cad Design Services

**Duration:** 06/01/2025 to 20/01/2025

| Sl.No. | Criteria                                                                                                                      | Good | Average | Poor |
|--------|-------------------------------------------------------------------------------------------------------------------------------|------|---------|------|
| 1.     | <b>General Aspects</b>                                                                                                        |      |         |      |
| 1.1    | Rate the training provided                                                                                                    |      | ✓       |      |
| 1.2    | Helpfulness/support of supervisor                                                                                             |      | ✓       |      |
| 1.3    | Acceptance/cooperation of fellow workers                                                                                      |      | ✓       |      |
| 1.4    | Adequacy of employer supervision                                                                                              |      | ✓       |      |
| 1.5    | Cooperation                                                                                                                   |      | ✓       |      |
| 1.6    | Scope for enhancing productiveness for department.                                                                            |      | ✓       |      |
| 1.7    | Rate the extent to which you gained a realistic preview of your field of interest.                                            |      | ✓       |      |
| 1.8    | Exposure to safety, health and environmental norms.                                                                           |      | ✓       |      |
| 2.     | <b>Rate the opportunities you have had through this Internship/In-plant training to use and develop the following skills:</b> |      |         |      |
| 2.1    | Interpersonal/human relation skills                                                                                           |      | ✓       |      |
| 2.2    | Oral communication/presentation skills                                                                                        |      | ✓       |      |
| 2.3    | Creativity/Professional Ethics/ Analytical ability                                                                            |      | ✓       |      |
| 2.4    | Problem solving                                                                                                               |      |         | ✓    |
| 2.5    | Critical thinking/Designing skills                                                                                            |      |         | ✓    |
| 2.6    | Writing skills                                                                                                                | ✓    |         |      |
| 3.     | <b>My Internship/In-plant training experience:</b>                                                                            |      |         |      |
| 3.1    | How far did it confirm your interest in a profession in this line of work?                                                    |      | ✓       |      |

|     |                                                                     |  |   |   |
|-----|---------------------------------------------------------------------|--|---|---|
| 3.2 | How far did it help you decide on pursuing a different career path? |  |   | ✓ |
| 4.  | <b>Overall Internship experience</b>                                |  | ✓ |   |

**Note:** Please rate the above aspects of your Internship/In-Plant Training on the basis of this scale:

**Good** (consistently meets expectation/sometimes exceeds expectation)

**Average** (Meets expectation)

**Poor** (Rarely meets expectation)
